EXECUTIVE SUMMARY

Tutuka Vegetation Management is a **specialist vegetation control** and right-of-way **maintenance contractor** dedicated to providing safe, reliable, environmentally responsible, and cost-effective vegetation management services throughout South Africa.

Our core focus is maintaining **electrical transmission and distribution** servitudes, substations, pump stations, industrial facilities, municipal infrastructure, mining operations, and public utility corridors.

With a highly trained workforce, modern equipment fleet, strict safety standards, and extensive experience working within high-risk environments, Tutuka Vegetation Management delivers vegetation control solutions that improve network reliability, reduce fire risk, enhance operational safety, and ensure regulatory compliance.

COMPANY BACKGROUND

Tutuka Vegetation Management was established to meet the growing demand for professional vegetation maintenance services within the utility, mining, municipal, and industrial sectors.

Our experienced management team understands the challenges of vegetation growth near electrical networks and critical infrastructure.

Through our commitment to quality, safety, and environmental stewardship, we deliver projects ranging from routine maintenance to large-scale contracts.
