Electrical Contractors (PTY) LTD

Quality Management System
ISO 9001:2015 Certified

- Our Background:

Tutuka Electrical Contractors CC was established in 2004 as an electrical contractor, constructing overhead lines and expanded its services to incorporate electrical infrastructure. In 2013 we included vegetation management services under overhead lines to our scope of work. On June 11th 2020, Tutuka Electrical Contractors CC was converted from a Closed Corporation to a Proprietary (Tutuka Electrical Contractors (Pty) LTD) in terms of item 2 of Schedule 2 of the Companies Act of 2008. Our hard work, dedication, transparency and quality management system (ISO 9001:2015 certification and accreditation) make us globally competitive and among an elite handful of companies that can offer the same standard of services. Due to our sheer commitment, today, Tutuka Electrical Contractors (Pty) LTD is acknowledged as one of the most experienced leading electrical and vegetation management contracting service providers. Tutuka Electrical can proudly announce that we are an ESKOM authorized contractor, and our services are delivered to international standards.

- Our Mission:

We provide the highest quality in electrical and vegetation management services at the fairest price. We will meet and exceed customer expectations through our entire spectrum of electrical build, maintenance and vegetation management services, completing projects on time and within budget. Our mission is to be our customer's first choice for electrical and vegetation management services.

- Our Vision:

Tutuka Electrical Contractors strives to rebuild, develop and be part of the economic solutions to our country by uplifting our employees through training and employee assistance program. We put hard work, attention to detail, and determination into every project we complete. Our customer's experience of our work exceeds their expectations.

Therefore, repeat business is and will remain a company norm.
